Science and the Akashic Field

An Integral Theory of Everything

ERVIN LASZLO

Recent discoveries in vacuum physics show that at the roots of reality there exists an interconnecting cosmic field that conserves and conveys all information. This field, the Akashic record, is the constant and enduring memory of the universe, holding the record of all that has happened in the cosmos and reflecting all that is yet to come.

Decoding the Message of the Pulsars

Intelligent Communication from the Galaxy

PAUL A. LAVIOLETTE, Ph.D.

Paul LaViolette's 25 years of research into the precisely timed radio pulses from extraterrestrial sources known as pulsars shows that they are distributed in the sky in a nonrandom fashion, often marking key galactic locations, and that their signals are of intelligent origin, warning about a past galactic core explosion that could recur in the near future.

Genesis of the Cosmos

The Ancient Science of Continuous Creation

PAUL A. LAVIOLETTE, Ph.D.

Paul LaViolette reveals astonishing parallels between cutting edge scientific thought and early creation myths, and how these myths encode a theory of cosmology in which matter is continually growing from seeds of order that emerge spontaneously from chaos. Exposing the contradictions of the Big Bang theory, LaViolette leads us beyond the restrictive metaphors of modern science and into a new science for the 21st century.
