

Masaru Emoto will be presenting a keynote address and workshop at The Second International Sound Healing Conference in Santa Fe, New Mexico, USA, November 8 - 12, 2007.

Masaru Emoto received certification from the Open International University as a Doctor of Alternative Medicine. Subsequently he was introduced to the concept of micro cluster water in the US and Magnetic Resonance Analysis technology. The quest thus began to discover the mystery of water.

He undertook extensive research of water around the planet, not so much as a scientific researcher, but more from the perspective of an original thinker. At length, he realized that it was in the frozen crystal form that water showed us its true nature. He has gained worldwide acclaim through his groundbreaking research and discovery that water is deeply connected to our individual and collective consciousness.

He is the author of the best-selling books "Messages from Water," "The Hidden Messages in Water," "The True Power of Water" and "Love Thyself." He is currently the head of I.H.M. General Research Institute and President Emeritus of the International Water for Life Foundation.

In Masaru's keynote address, "Messages from Water," he will explain how sound happens as a result of vibration. Therefore we can say that sound = vibration. Everything which exists in this world is making sound and our body is no exception. We maintain our lives by energies which are vibrating. It is important to give good Hado (vibration/life) to others.

You will learn about the wide-ranging issues of our societies from the Hado = Energy perspective. Masaru will share his four criteria which includes: Resonance - everything is relative to the theory of resonance, Purity - the effectiveness of energy is determined by its purity, Law of Similarity - the science of the 12 notes of the piano (the purpose of human beings is to be the conductor), and lastly, Shape - the meaning that is represented in the hexagonal crystal formation.

In this keynote, you will learn that Hado is (Life = Vibration = Life), that to utilize Hado energy means to activate people's subconscious ability, to achieve world peace depends on our consciousness and there are methods for concrete activities, and that words are alive. The true meaning of "In the beginning was the word" will be discussed.

The goal of Masaru's keynote is to introduce you to how you can apply Hado in your everyday life.

In Masaru's workshop, "Water and Hado," you will learn the three key ways to alter any circumstance: water, music and consciousness. You will learn the definition of diseases and injuries as viewed through the lenses of Hado Theory.

You will be introduced to the Law of Similarity - Science of Do Re Mi Fa So La Ti Do; and the role of human beings as the conductor of all nature.

Masaru will introduce you to various energies that have an effect on the world of elementary particles and a new technology - Sound Energy Technology.
